

Ordinance No. 5060

Ordinance of the Council of the City of Palo Alto Amending Title 10 by Repealing Chapter 10.46 (Residential Permit Parking) of Title 10 (Vehicles and Traffic) of the Palo Alto Municipal Code in Its Entirety and Enacting a New Chapter 10.46 (College Terrace Residential Parking Permit Program) (RPPP)

The Council of the City of Palo Alto does ORDAIN as follows:

SECTION 1. Legislative Purpose. The ordinance codified in this chapter is enacted in response to the serious adverse effects caused in the College Terrace neighborhood of Palo Alto by motor vehicle congestion, particularly the long-term parking of motor vehicles on the streets and neighborhood by nonresidents thereof. As set forth in more specific detail in Section 2, such long-term parking by nonresidents threatens the health, safety and welfare of residents of College Terrace. In order to protect and promote the integrity of the neighborhood, it is necessary to enact parking regulations restricting unlimited parking by nonresidents therein, while providing the opportunity for residents to park near their homes. Uniform parking regulations restricting residents and nonresidents alike do not serve the public interests, rather such regulations contribute to neighborhood decline. For the reasons set forth in this chapter, a system of residential permit parking is enacted for the College Terrace Neighborhood.

SECTION 2. Legislative Findings.

(a) General Findings. The City Council finds, as a result of evidence generated by professional studies and derived from other sources, which the continued vitality of Palo Alto depends on the preservation of safe, healthy and attractive neighborhoods and other residential areas therein. The Council further finds that one factor that has detracted from the safety, health and attractiveness of Palo Alto is the excessive and burdensome practice of nonresidents parking their motor vehicles for extended periods of time in the College Terrace neighborhood. Since at any one time there is in College Terrace a surplus of motor vehicles over available on- and off-street parking spaces, this condition detracts from a healthy and complete urban environment. A system of residential permit parking will serve to reduce a number of strains on residents of the neighborhood and thus promote the general public welfare.

(b) Specific Findings. The following specific legislative findings for the City Council in support of residential permit parking are set forth as illustrations only and do not exhaust the subject of the factual basis supporting its adoption:

(1) The safety, health and welfare of the residents of Palo Alto can be greatly enhanced by maintenance of the attractiveness and livability of its neighborhoods and other residential areas.

(2) A large portion of Palo Alto residents possess automobiles and as a result are daily faced with the need to store these automobiles in or near their residences.

(3) The College Terrace neighborhood is burdened by influxes of motor vehicles owned by nonresidents which compete for the available on-street parking spaces.

(4) There further exist certain parking "attractors" near College Terrace including, but not limited to, Stanford University, Stanford Research Park, and El Camino Real commercial uses which further exacerbate neighborhood parking problems.

(5) College Terrace does not have sufficient on- or off-street space to accommodate the convenient parking of motor vehicles by residents thereof in the vicinity of their homes with the addition of nonresident parking. To the extent that such facilities do exist, the program set forth herein is designed to encourage the maximum feasible utilization of parking facilities by neighborhood residents.

(6) Unnecessary vehicle miles, noise, pollution, and strains on interpersonal relationships, caused by the conditions set forth herein, work unacceptable hardships on residents of the neighborhood by causing the deterioration of air quality, safety, tranquility and other values available in an urban residential environment.

(7) If allowed to continue unchecked, these adverse effects on the citizens of Palo Alto will contribute to a further decline of the living conditions therein, a reduction in the attractiveness of residing within Palo Alto and consequent injury to the general public welfare.

(8) The system of residential permit parking, as enacted by the ordinance codified in this chapter, will serve to promote the safety, health and welfare of the citizens of College Terrace by (a) reducing unnecessary personal motor vehicle travel, noise, and pollution; and (b) promoting improvements in air quality and the convenience and attractiveness of urban residential living, now and in the future.

(2) Said description or map shall be followed in the petition by the following statement:

"We, the undersigned, are residents in the proposed residential permit parking area described in this petition. We understand that, if this area is designated as a residential permit parking area, certain restrictions will be placed upon on-street parking within the designated area; that subject to the regulations and restrictions established by the City Council, guests to residences will be eligible to use permits exempting them from such parking restrictions; that the annual fee for a residential parking permit will be as set forth in the City of Palo Alto Municipal Fee Schedule; that a residential parking permit may be issued to a resident of a residential address and/or to each additional resident of the same address; that no more than one residential parking permit shall be issued to each motor vehicle owned or leased for which application is made; that fees for guest parking permits (either one-day or annual guest parking permits) are as set forth in the City Municipal Fee Schedule. In addition, the petition sponsor must certify that a reasonable means of inquiry was undertaken to assure the validity of petition signatures. Receipt of a petition representing at least fifty-one (51) percent of the addresses within a proposed area will initiate the residential permit parking review process. Subsequent counter petitions received from residents within a proposed block will be reviewed, but they will in no way invalidate the initial petition requesting establishment of residential permit parking or terminate the review process.

(4) Both sides of a street must be included in each block area unless determined by the City Manager or his or her designee to be impractical or undesirable.

All blocks with at least fifty-one (51) percent of the addresses supporting the RPPP will be considered for inclusion in the program.

(3) Cause to be drafted a resolution which would establish a residential permit parking area based upon the aforementioned petition, survey, studies and vote, including any regulations and time restrictions as established in this chapter.

(c) The City Council may approve, reject, or modify the resolution establishing a residential permit parking area. The City Council must approve the resolution in order to establish a residential permit parking area.

10.28.050 Withdrawal as a residential permit parking area.

(a) Once a block is enrolled, there is a one year waiting period before it may withdraw from the RPPP program. A block may withdraw from the program following submission of a petition by the following statement:

(1) We, the undersigned, are residents in the College Terrace residential permit parking area described in this petition. We request that the block described in this petition be removed from the College Terrace residential parking permit program. We understand that, if this area is removed as a residential permit parking area that nonresidents may park along the block without time restrictions of the RPPP but it does not exempt vehicles from other traffic controls and regulations existing in the College Terrace neighborhood.

(2) The aforementioned statement shall be followed by a signature, printed name, address, and date of signing of the petition by residents representing at least fifty-one (51) percent of the addresses within each proposed block requesting removal from the program. In addition, the petition sponsor must certify that a reasonable means of inquiry was undertaken to assure the validity of petition signatures. Receipt of a petition representing at least fifty-one (51) percent of the addresses within a proposed area will initiate the residential permit parking withdrawal process. The city shall conduct an official vote of the blocks requesting withdrawal in the RPPP. Removal from the RPPP shall be administered by the City Manager or his or her designee.
